Independent Auditor's Report on the Financial Schedules

The Honorable Terri Lynn Land
Secretary of State
Richard H. Austin Building
Lansing, Michigan

Dear Secretary Land:

We have audited the accompanying financial schedules of the Department of State for the fiscal years ended September 30, 2006 and September 30, 2005, as identified in the table of contents. These financial schedules are the responsibility of the Department's management. Our responsibility is to express an opinion on these financial schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial schedules. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the financial schedules present only the revenues and other financing sources for the Department of State's General Fund, School Aid Fund, other special revenue fund, and private purpose trust fund accounts and the sources and disposition of authorizations for the Department of State's General Fund accounts, presented using the current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, these financial schedules do not purport to, and do not, constitute a complete financial presentation of either the Department or the State's General Fund, School Aid Fund, other special revenue funds, or private purpose trust funds in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial schedules referred to in the first paragraph present fairly, in all material respects, the revenues and other financing sources and the sources and disposition of authorizations of the Department of State for the fiscal years ended September 30, 2006 and September 30, 2005 on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 16, 2007 on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The schedule of expenditures of federal awards, required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and other supplemental financial schedules, as identified in the table of contents, are presented for purposes of additional analysis and are not a required part of the Department's financial schedules referred to in the first paragraph. Such information has been subjected to the auditing procedures applied in the audit of the financial schedules and, in our opinion, is fairly stated, in all material respects, in relation to the financial schedules taken as a whole.

Sincerely,

A handwritten signature in black ink, reading "Thomas H. McTavish". The signature is fluid and cursive, with a horizontal line extending from the left side of the first name.

Notes to the Financial Schedules

Note 1 Significant Accounting Policies

a. Reporting Entity

The accompanying financial schedules report the results of the governmental operations of the Department of State for the fiscal years ended September 30, 2006 and September 30, 2005. The governmental operations of the Department are accounted for principally in the State's General Fund and are reported on in the *State of Michigan Comprehensive Annual Financial Report (SOMCAFR)*. In addition, the Department is responsible for collecting fees for various funds, as discussed in Note 3.

The notes accompanying these financial schedules relate directly to the Department of State. The *SOMCAFR* provides more extensive disclosures regarding the State's significant accounting policies; budgeting, budgetary control, and legal compliance; and pension benefits and other postemployment benefits.

b. Measurement Focus, Basis of Accounting, and Presentation

The financial schedules contained in this report are presented using the current financial resources measurement focus and the modified accrual basis of accounting, as provided by accounting principles generally accepted in the United States of America. Under the modified accrual basis of accounting, revenues are recognized as they become susceptible to accrual, generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred; however, certain expenditures related to long-term obligations are recorded only when payment is due and payable.

The accompanying financial schedules present only the revenues and other financing sources for the Department of State's General Fund, School Aid Fund, other special revenue funds, and private purpose trust fund accounts and the sources and disposition of authorizations for the

Department's General Fund accounts. Accordingly, these financial schedules do not purport to, and do not, constitute a complete financial presentation of either the Department or the State's General Fund, School Aid Fund, other special revenue funds, or private purpose trust funds in conformity with accounting principles generally accepted in the United States of America.

Note 2 Schedule of Sources and Disposition of General Fund Authorizations

The various elements of the schedule of sources and disposition of General Fund authorizations are defined as follows:

- a. General purpose appropriations: Original appropriations and any supplemental appropriations that are financed by General Fund/general purpose revenues.
- b. Budgetary adjustment: An adjustment for write-off of accounts receivable.
- c. Balances carried forward: Authorizations for multi-year projects, encumbrances, restricted revenues - authorized, and restricted revenues - not authorized or used that were not spent as of the end of the prior fiscal year. These authorizations are available for expenditure in the current fiscal year for the purpose of the carry-forward without additional legislative authorization, except for the restricted revenues - not authorized or used.
- d. Restricted financing sources: Collections of restricted revenues, restricted transfers, and restricted intrafund expenditure reimbursements to finance programs as detailed in the appropriations act. These financing sources are authorized for expenditure up to the amount appropriated. Depending upon program statute, any amounts received in excess of the appropriation are, at year-end, either converted to general purpose financing sources and made available for general appropriation in the next fiscal year or carried forward to the next fiscal year as either restricted revenues - authorized or restricted revenues - not authorized or used. Significant sources of this type for fiscal year 2005-06 were from the Transportation Administration Collection Fund (\$110.3 million), the Michigan Transportation Fund (\$31 million), and the Help America Vote Act (\$42.6 million). Significant sources of this type for fiscal year 2004-05

were from the Transportation Administration Collection Fund (\$70.8 million), fees for looking up driver vehicle records (\$34.2 million), the Michigan Transportation Fund (\$20.0 million), and the Help America Vote Act (\$15.8 million).

- e. Multi-year projects: Unexpended authorizations for work projects and capital outlay projects that are carried forward to subsequent fiscal years for the completion of the projects. Significant carry-forwards of this type for fiscal year 2005-06 were for the Business Application Modernization (\$3.2 million) and the Help America Vote Act (\$1.1 million). Significant carry-forwards of this type for fiscal year 2004-05 were for the Business Application Modernization (\$4.7 million) and the Help America Vote Act (\$3.3 million).
- f. Encumbrances: Authorizations carried forward to finance payments for goods or services ordered during the fiscal year but not received by fiscal year-end. These authorizations are generally limited to obligations funded by general purpose appropriations.
- g. Restricted revenues - authorized: Revenues that, by statute or the State Constitution, are restricted and authorized for use to a particular program or activity. Generally, these revenues may be expended upon receipt without additional legislative authorization. This line item also includes encumbrances that are financed with these restricted revenues. A significant carry-forward of this type for fiscal year 2005-06 was for encumbrances funded by fees for the sale of Michigan Vehicle Code books (\$118,000). Significant carry-forwards of this type for fiscal year 2004-05 were for encumbrances funded by fees for the sale of Michigan Vehicle Code books (\$111,000) and for looking up driver and vehicle records (\$27,000).
- h. Restricted revenues - not authorized or used: Revenues that, by statute, are restricted for use to a particular program or activity. Generally, the expenditure of the restricted revenues is subject to annual legislative appropriation. Significant carry-forwards of this type for fiscal year 2005-06 were for the Transportation Administration Collection Fund (\$2.2 million) and motorcycle safety fees (\$904,000). Significant carry-forwards

of this type for fiscal year 2004-05 were for motorcycle safety fees (\$1.2 million) and the Transportation Administration Collection Fund (\$645,000).

The restricted revenues may also be used in subsequent years to finance expenditures for multi-year appropriations and encumbrances without additional legislative authorization. Significant carry-forwards of this type for fiscal year 2005-06 were the Michigan Transportation Fund (\$7.5 million for the blue plate replacement), the Transportation Administration Collection Fund (\$4.2 million), driver fees (\$1.1 million), and personal identification card fees (\$800,000). Significant carry-forwards of this type for fiscal year 2004-05 were the Transportation Administration Collection Fund (\$1.5 million), personal identification card fees (\$1.6 million), and driver fees (\$1.3 million).

- i. Balances lapsed: Authorizations that were unexpended and unobligated at the end of the fiscal year. These amounts are available for legislative appropriation in the subsequent fiscal year.

Note 3 Schedule of Revenue and Other Financing Sources

The Department of State is responsible for collecting taxes and other revenues related to its own operations and those of certain other State departments. These revenues are accounted for in the General Fund, the School Aid Fund, other special revenue funds, and a private purpose trust fund. The other special revenue funds include the Michigan Transportation Fund, State Trunkline Fund, Michigan State Waterways Fund, Marine Safety Fund, Michigan Nongame Fish and Wildlife Fund, Vietnam Veterans' Memorial Monument Fund, Assigned Claims Facility and Plan Fund, and Children's Trust Fund. The private purpose trust fund is the Gifts, Bequests, and Deposits Investment Fund. The amounts shown in the schedule of revenues and other financing sources represent only the amounts collected by or transferred to the Department of State and do not represent total revenues or other financing sources for the funds.

Effective October 1, 2003, Section 257.810b of the *Michigan Compiled Laws* established the Transportation Administration Collection Fund within the State's General Fund. This Section statutorily required the deposit of certain Department of State fees into the Transportation Administration Collection Fund that were previously statutorily required to be deposited into the Michigan

Transportation Fund. This resulted in a decrease in transfers from the Michigan Transportation Fund beginning with the fiscal year ended September 30, 2004.

Note 4 Contingencies and Litigation

a. County Road Association of Michigan et al. v John M. Engler et al.:

On March 6, 2002, the County Road Association of Michigan and the Chippewa County Road Commission filed a complaint in Ingham County Circuit Court challenging various provisions of Executive Order No. 2001-9. The complaint consisted of five counts, one of which alleged that the State violated Article IX, Section 9 of the State Constitution by unlawfully allowing the Department of State to bill the Michigan Department of Transportation for expenses in excess of those necessary to collect motor vehicle taxes and fees.

On December 23, 2002, the trial court determined that \$20 million of the disputed costs were not necessary collection expenses, and the court issued a preliminary injunction enjoining the transfer of that amount of the funds. On appeal, defendants challenged whether the trial court had abused its discretion when determining that the plaintiffs were likely to prevail on the merits and, thus, inappropriately issued the injunction. On December 10, 2003, the parties gave oral arguments in the Michigan Court of Appeals on the injunctions.

On January 13, 2004, the Michigan Court of Appeals directed the trial court on remand to modify the preliminary injunction at issue so that it applies to only the amount of \$7.3 million. This amount relates to costs associated with processing automobile dealer licenses and drivers' license appeals and operating driver improvement programs. The Michigan Court of Appeals concluded that the trial court properly determined that the plaintiffs were likely to prevail on the merits with respect to only the \$7.3 million of the \$20 million and, therefore, had a basis for issuing the injunction.

In April 2004, the State filed an application for leave to appeal in the Michigan Supreme Court. The State sought to appeal the decision of the Michigan Court of Appeals that barred the State from paying \$7.3 million in necessary collection expenses. The County Road Association of

Michigan also filed an application for leave in the Michigan Supreme Court seeking to appeal the decision of the Michigan Court of Appeals that reversed the trial court and allowed the State to pay \$12.4 million in necessary collection expenses.

On January 30, 2006, the Michigan Supreme Court denied the State's application for leave to appeal. Therefore, the Michigan Court of Appeals' decision stands, which could result in the State repaying the Michigan Transportation Fund \$7.3 million. Because the status of this lawsuit remains pending and its outcome is uncertain, no liability is recorded in these financial schedules.

b. 208 Partners

208 Partners filed suit against the Department of State in a breach of contract issue regarding the holdover of a lease agreement. An agreement was reached in February 2007 and the Department of State agreed to pay 208 Partners \$485,000 to settle the suit. This settlement liability is not recorded in these financial schedules. In accordance with generally accepted accounting principles for governmental funds, liabilities are accrued when cases are settled and the amount is due and payable.

AUDITOR GENERAL

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters

The Honorable Terri Lynn Land
Secretary of State
Richard H. Austin Building
Lansing, Michigan

Dear Secretary Land:

We have audited the financial schedules of the Department of State for the fiscal years ended September 30, 2006 and September 30, 2005, as identified in the table of contents, and have issued our report thereon dated March 16, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Department's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial schedules and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial schedules being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's financial schedules are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial schedule amounts. However, providing an opinion on compliance with those provisions

was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the State's management, the Legislature, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Sincerely,

A handwritten signature in black ink, reading "Thomas H. McTavish". The signature is fluid and cursive, with a long horizontal line extending from the start of the name.

Independent Auditor's Report on Compliance With
Requirements Applicable to Each Major Program
and on Internal Control Over Compliance in
Accordance With OMB Circular A-133

The Honorable Terri Lynn Land
Secretary of State
Richard H. Austin Building
Lansing, Michigan

Dear Secretary Land:

Compliance

We have audited the compliance of the Department of State with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each major federal program for the two-year period ended September 30, 2006. The Department's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each major federal program is the responsibility of the Department's management. Our responsibility is to express an opinion on the Department's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to in the previous paragraph that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our

opinion. Our audit does not provide a legal determination of the Department's compliance with those requirements.

In our opinion, the Department of State complied, in all material respects, with the requirements referred to in the first paragraph that are applicable to each major federal program for the two-year period ended September 30, 2006.

Internal Control Over Compliance

The management of the Department is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Department's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the State's management, the Legislature, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Sincerely,

Thomas H. McTavish, C.P.A.
